ONE CENT.

Over Thirty Years Without Sickness.

Mr. H. WETTSTEIN, a well-known, enterprising citizen of Byron, Ill., writes: "Before I paid much attention to regulating the bowels, I hardly knew a well day; but since I learned the evil results of constipation, and the efficacy of

AYER'S

Pills, I have not had one day's sickness for over thirty years—not one attack that did not readily yield to this remedy. My wife had been, previous to our marriage, an invalid for years. She had a prejudice against cathartics, but as soon as she began to use Ayer's Pills her health was restored."

There is a man in our town
(His name my memory slips),
Who kissed me a thousand microbes
On his sweethearts ruby lips.
And when he found what he'd done,
With all his might and main,
He mashed up there another night
And killed them on again.

Chamberlain's

Diarrhea Remedy.

For all the rest, regardless of how bad it is, he might as well be in jail. He cannot eat what he likes not enough. He suffers much, gets little sympathy. At first perhaps a little relief, but then comes a series of sharp, windy, breathless and heartburning rheumatisms and ulcers, and a foul taste in the mouth in the morning. Chronic constipation is almost inevitable, and means that the body is holding on to the waste products of the system.

We're for America & Americans!

CLEVELAND's forthcoming message is awaited with considerable curiosity by a large number of people who cannot imagine how he is going to account for the recent reversal of his party without saying some severe things about his own Administration.

The late E. D. JORDAN, the Boston dry-goods millionaire, was a fatherless boy who went to work on a farm at the age of 14 for \$4 a month. Socialists who denounce plutocracy should say where they would draw the line against small boys who start in life with nothing but a capital of American grit and American opportunity.

The Knights of Labor General Assembly has issued a boycott against JOHN WANAMAKER because informed that 1,600 women and girls employed by him are compelled to belong to a relief association over which they have no control. Wonder these fellows don't boycott weather, which they are compelled to endure and over which they have no control.

It was NICHOLAS I., of Russia, in January, 1844, in conversation with the British Minister at St. Petersburg, who called Turkey the sick man of Europe, and proposed that the leading Powers should partition the Empire and obliterate it from the map as an independent Nation. But England supposed that Russia had designs on Constantinople, and, instead of an absorption of Turkey, there was the Crimean War, in which France and England allied themselves with Turkey against Russia. And now the extra cost of coal when steam is kept up on the British fleet in the neighborhood of Constantinople is \$35,000 a day. Turkey is an expensive luxury to all of the Powers, and will be eliminated as a matter of economy.

Kept the Appointment.
In one sense the world is growing smaller every year. Traveling facilities are constantly increasing, and distant places seem less remote. This reflection is induced by an incident reported in The New York Tribune.

A man whose cheek was bronzed by exposure walked up to the desk of the Fly Avon Hotel the other day, and asked the clerk if it was certain Mr. C. was still there.

"Yes," said the clerk, "he arrived this morning from Europe."

The caller sent up his card, and in a few moments word came back that he was to go to the parlor. As he turned to go, he said,

"I haven't seen Mr. So-and-so for almost a year. I met him in Cairo, Egypt, about the first of last September. We were interested in a certain master of business, and after talking it over we made an appointment to meet here to-day at 3 o'clock for a further conference. It is now five minutes past 3."

The reader of this paper will be pleased to learn that there is at least one dread disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the most popular and most effective medicine for removing catarrhal diseases. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly on the blood and mucous membranes, and thus removing the primary foundation of the disease, and giving the patient strength by building up the constitution and restoring nature in doing its work. The proprietors have so much faith in its curative powers that they offer a hundred dollars in cash to any one to prove it false. Send for full information.

BLOOMFIELD LINE.

A Possibility That the Southern Road Will Take It.

Louisville, Ky., Nov. 26.—There is a report that the Louisville & Nashville railroad, at least, that the twenty-six miles of the Cumberland and Ohio railroad lying between Shelbyville and Bloomfield will not be allowed to become subject to rust. The Louisville and Nashville will repudiate the Short Line, and the Louisville & Nashville report has it that the Southern will operate the branch, as it is believed it can make self-sustaining, especially as it can derive a larger revenue if the people will give the line their traffic. The schedules of the Southern are so arranged that a single engine and a mixed train could be run each way daily between Bloomfield and Shelbyville, making connections at once for Louisville, Lexington and Burgin. Our train crew could handle these four trains.

THE MESSAGE.

President Cleveland Has a Little Surprise in Store.

He Will Give a Startling Chapter on the Venezuela Boundary Dispute

And the Revolution in Cuba—The President Will Stand by the Monroe Doctrine and Will Express Sympathy With the Effects of the Cubans.

New York, Nov. 26.—The Sun's Washington correspondent telegraphs as follows:

"President Cleveland's friends in Washington and elsewhere continue to assert that the forthcoming message will contain a surprising chapter on the Venezuelan boundary dispute and the Cuban revolution. The surprise, it is said, will be occasioned by the president's announcement that with regard to the Venezuela boundary dispute the administration has taken such advanced ground in the direction of a vigorous assertion of American rights as to amount to a complete reversal of its foreign policy up to the time that it became secretary of state. Some time during the summer Secretary Olney addressed a communication to the British government containing an emphatic notification that the United States would expect to see the Monroe doctrine respected, and would insist upon its application to the controversy between England and Venezuela."

"As to Cuba, the administration has taken no step in addition to the ill-advised letter of Attorney General Harmon giving it as his unofficial opinion that the United States people would be doing an unfriendly act to a friendly power in taking part in public meetings called for the purpose of expressing sympathy with the cause."

"Judge Harmon has since admitted that his letter was written without sufficient thought, and that in it he took ground that he is now willing to surrender."

"It is now asserted that the president will express hearty sympathy with the efforts of the Cubans to obtain freedom and there is a further indication in the opinion of the administration that they should be recognized as belligerents."

"The statement is repeated that the vigorous Americanism of the new policy will be a surprise to the public, amounting to a sensation. The terms of the new policy are to support imperialism to Great Britain and the suggestion for the recognition of the Cuban patriots as belligerents will be made public simultaneously, and the administration will devote the remainder of its life to popularizing itself with the American people."

GRAVE CHARGES

Made Against Minister Terrell
